In fact I could upload the same report again from last weekend because the outcoming was the same.

The course in Windham was totally different though to Mont Sainte Anne and is described by many as “old-stlye“. There was one long climb and one downhill with no technical demands. Just the sharp stones were dangerous where you could cut the tire.

At the start I stayed more or less on the same position and I had to “wait“ again till I could catch and pass other riders. So I fought hard again to get forward until I reached again the 26th position like I said already.

I can say that there is a certain consistency. I was already the 3rd time in a row where I reached in the World Cup the 26th place in this season, in Albstadt, MSA and Windham.
